Longer Controls Prices.

Washington, July 12.—The cost of living, after rising steadily since 1907, except in 1911, took a downward trend during 1915. A report by the Bureau of Labor issued to-day analyzing retail prices of twenty-nine articles of food shows that relative retail prices during 1915 averaged 1 per cent lower than in 1914. Meats, lard and eggs averaged from 1 to 9 per cent lower, while potatoes were 22 per cent lower. Wheat flour, cornmeal and granulated sugar were higher than in 1914, flour being 20 per cent and sugar 11 per cent higher.
